Product highlights

24 carat gold-plated connector

24 carat gold-plated connectors ensure the best signal quality for your components.

Braided shielding

Copper braided reinforced aluminum shielding protects against signal loss and interference.

Plug and play

Plug and play offers easy installation of components without time-consuming installations.

Color-coded connectors

Color coded connections make it easy to install your cable into the correct inputs and outputs

Metal shell

The metal shell protects the internal connection of the cable. It ensures durability and the reliability of your connection.

Flexible PVC Jacket

Flexible PVC jacket provided protection to the delicate core of the cable. It also offers extended durability and ease of installation.

High purity copper

This copper conductor provides high accuracy in signal transfer with minimal resistance.

Rubber strain relief

Rubber strain relief provides a secure, yet flexible juncture between the cable and the plug.
